## From the Editor's Desk...

Greetings Cousins!

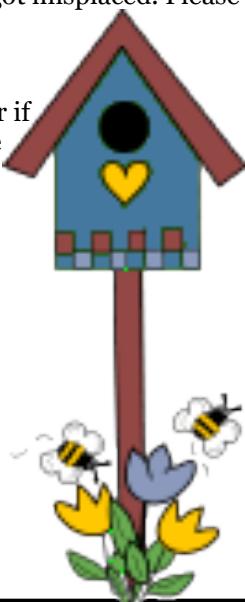

Spring has come and we are happy to see it! I hope your winter wasn't too ferocious, however this newsletter will be going all over the country and Canada, so it's bound to reach folks who have been in the sun and surf all winter and others up to their noses in snow! It has been a mild one for me here in Ohio. We only received an inch at most all winter but have had some serious flooding. I was very grateful to have been in a corridor of safety during those awful tornado outbreaks. We are in for more of the same, or so I hear, so you are all in my prayers for safety as I attach each address label and think of each of you.

This issue was not easy to put together. As you will notice there is much information about my family and it's Canadian roots. I have not received many articles for publication in recent months so I pretty much drew from my own files.

Michael Tower has provided an article of interest in revealing that he is descended from two second generation brothers. I wonder how many of us can claim the same thing? Let us know! I also have two lines from which I am descended and I have included my family tree.

Also included are some birth announcements that are rather dated. I'm sorry for the late publication but things got put off and shuffled and things got misplaced. Please accept my sincerest apologies!

My address in Ohio may soon change again as well and I'm not sure what the new one will be or even if I will still be in Ohio, or if I will indeed be moving but I'm grateful for the ability to do the newsletter and get information from members through the internet.

Until next time, have a safe and happy spring!

# Related to Two Second Generation Towers

By Michael M. Tower (12), PhD

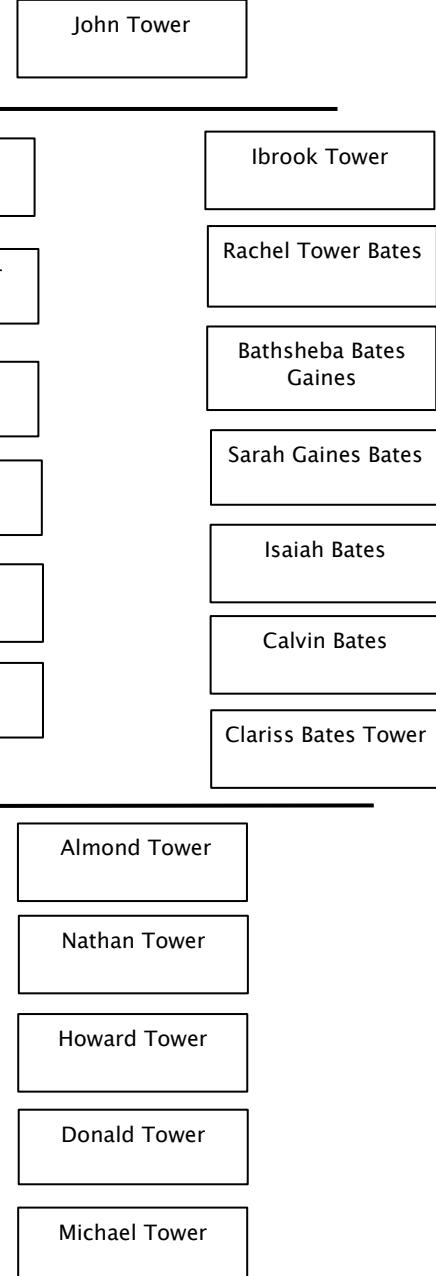

After pouring over Charlemagne Tower's Genealogy book, I traced my ancestry back to Jeremiah (2) Tower, fourth son of pilgrim John Tower. Everything settled and no questions. But then tracing back other family members on Ancestry.com, I found another Tower in my family tree – Rachel (3) Tower, daughter of Ibrook (2) Tower, third son of John.

This revelation revealed that I am directly descended from two second generation brothers. Ibrook's daughter, Rachel (3) and her descendants married into the Hingham, Massachusetts Bates and Gaines families. These families along with Peter (5) Tower's family left Hingham for western Massachusetts near the end of the Revolutionary War to seek new lands for farming. Charlemagne's book (pg. 76) states that: "Their (pioneers) families made closer the connections with the Tower Family by frequent intermarriages."

My family tree branches merge again with the 1815 marriage of Asa (6) Tower and Clariss Bates (7) in Cummington, Massachusetts. I believe this is a fairly unique family tree.

Does any other Tower newsletter reader have a similar family tree?

**Let's hear about it.**

They were married by the Reverend Seldon W. Cummings, who also baptized Myrtle, on December 5, 1906, at Amherst, N. S. Edward Haywood was best man and Olive Blare was maid of honor. The ceremony was performed at the parsonage and the transportation was a sleigh drawn by two shiny black horses wearing white plumes. The sleigh was lined with red-trimmed buffalo robes. A supper was given at Mrs. E.J. Lay's, with special cake for the bride.

Harold Beherrell came to the United States in 1928 and settled in Boxford, Massachusetts. He was followed by his wife and children later in 1928. Mr. Beherrell was a strong and diligent worker and followed many occupations to a satisfactory degree. He engaged in farming, lumbering, landscape gardening and masonry. Because he was a lover of the outdoors, he chose occupations that could be performed in the open air. He was a dedicated worker and was well thought of by all he worked with and all who employed him. The last six years of his employment before retiring was for the Town of Lynnfield. The largest part of his work was masonry. It was not until his 77<sup>th</sup> year that he was forced by a serious accident to retire from all activities. Mr. Beherrell died on January 8, 1963 in his eighty-first year.

Mrs. Beherrell, after rearing her family, was employed in the shoe industry as an operator of a dinking machine. She pursued this type of employment until 1950 when she was forced to retire for the sake of her health.
